1	HistoryofKazak	The course is aimed at shaping the concept of	5	MC 1
	hstan	modern history of the Fatherland among		
		students, based on a holistic and objective		
		coverage of the problems of the ethnogenesis of		
		the Kazakh people, the evolution of forms of		
		statehood and civilization on the territory of the		
		Great Steppe and the totality of the most		
		significant historical facts and events.		
		Systematization of historical knowledge about		
		the main events of modern history, forming a		
		scientific worldview and citizenship. Creation of		
		an ideological and spiritual basis for the consolidation of a multi-ethnic and multi-		
		confessional Kazakhstan society		
2	Philosophy	The course is aimed at developing students'	5	MC2
2	1 iniosophy	understanding of philosophy as a special form of	3	WIC2
		knowledge of the world, its main sections,		
		problems and methods, as well as skills of self-		
		analysis and moral self-regulation, the		
		development of research skills and the formation		
		of intellectual and creative potential.		
		Special attention is paid to the problems of		
		preserving national identity, the assimilation of		
		such key ideological concepts as justice, dignity		
		and freedom, and the role of philosophy in		
		modernizing public consciousness and solving		
		global problems of modernity.		
3	Foreignlanguage	Learning a foreign language sets tasks for the	10	MC3
		development of foreign language communicative		
		competence in the totality of its components:		
		• Speech competence - the development of		
		communication skills in four main types of		
		speech activity;		
		• language competence - mastering new		
		language means (phonetic, spelling, lexical,		
		grammar); • Socio-cultural competence - the formation of		
		the ability to represent your country, its culture;		
		• educational and cognitive competence -		
		familiarity with the methods available to learners		
		and methods of independent study of languages		
		and cultures		
4	Kazakh	Discipline is intended for the development of	10	MC3
	(Russian)	language		<del>_</del>

	analysis	analysis of financial and economic activities,		1,1012,111013
	•	both quantitative calculations of various		LO5,LO
		indicators, ratios, ratios, and their qualitative		10,LO 11
		assessment, and description, comparison with similar indicators of other enterprises.		
33	Businessvaluatio	The purpose of studying the discipline "Business	4	MC13
	n	Assessment" is to form a complete system of		
		knowledge of theoretical, methodological and		LO10
		practical approaches to the valuation of the		LO 11
		enterprise, to study the conceptual and terminological apparatus, which characterizes		LOTT
		the nature and content of the cost assessment of		
		various types of property.		
34		The purpose of the discipline is to disclose the	4	MC13
	Business	economic content of the finances of enterprises,		10810
	Finance	the principles, forms and methods of their organization; essence the processes of formation		LO8,LO 9,LO 10
		of expenses and incomes, financial resources and		9,LO 10
		capital of organizations (enterprises), as a result,		
		to prepare highly qualified specialists with		
		practical skills in enterprises of various sectors		
		of the economy, in associations and ministries		
35	Financial market	The aim of the course is to give a basic	5	MC 13
	institutions and	understanding of the principles and mechanisms		
	instruments	of the financial market, its main participants and		LO 4,LO
		instruments. The object of study is the financial		8,LO 9
		market as part of the financial system in the economy. The subject of the study is the legal		
		and institutional framework for the functioning		
		of the financial market, the interaction of		
		financial market participants in the issuance and		

		circulation of financial instruments, the evaluation of investments in financial market		
		instruments.		
36	Financial markets and intermediaries	The course is aimed at creating a system of knowledge and competencies in the field of functioning and regulation of the financial	5	MC13 LO 4,LO
		market, the role of financial intermediaries.  Particular attention is paid to the structure, tools and mechanism of the modern financial market, the foreign exchange and credit markets, the securities market, the insurance market, attracting capital to the economy and the		8,LO 9, LO 13
37	Securities	redistribution of financial resources.  Studying the discipline allows you to master the	5	MC13
31	market	basics of the securities market, types of corporate securities and their features, government securities, stock indices as indicators of the state of stock markets, derivatives market instruments, characteristics of organized securities markets,	3	LO10,LO11
		the activities of the largest foreign stock exchanges, OTC organizers of trading financial instruments, features of the functioning of term exchanges, international securities market, regulatory and legal regulation of operations on stock exchanges markets.		
38	Foreign stock markets	The purpose of this course is to acquaint students with the structure of world stock markets, the	5	MC13
		specifics of the activities of the main participants in the process of international capital movement, the specifics of the functioning of the largest securities markets of developed and developing countries. In the process of studying this discipline, students will learn to analyze the situation on world stock markets, to assess the main parameters of their condition and the risks of investing in financial assets.		LO4,LO8,LO
39	International monetary relations	The discipline "International Monetary and Financial Relations" provides for the following tasks: - studying the structure of the global monetary and credit system, analyzing the	5	MC13 LO8,LO12,L O13
		interaction of the structural elements of monetary and credit relations at the national and international levels; -the mastery of traditional and modern methods of banking services for foreign economic activity, hedging and financing international economic transactions.		
40	Foreign exchange market and foreign	The study of the discipline "foreign Exchange market and currency operations" involves the development of students of economic,	5	MC13 LO4,
	exchange transactions	organizational and legal instruments by which the mechanism of functioning of the currency market and implementation of currency		LO8,LO9,LO 13
		operations in Kazakhstan and abroad is realized.  Discipline is aimed at the formation of professional and applied competences of the graduate		

41	Business entity	The course studies the theoretical foundations of	5	MC11,MC12
41	audit	reliability, completeness, materiality, neutrality.	3	MC11,MC12
	auun	Financial statements are a combination of data		LO5,
		characterizing the results of the financial and		LO6,LO10,L
		economic activities of the enterprise for the		
		reporting period, obtained from the data of		O11
		accounting and other types of accounting.		
42	Financial control	Financial control is organized by state bodies.	5	MC11,MC12
72	and audit	The foundations of financial control begin with	3	WICTT,WICTZ
	and addit	the Constitution of the Republic of Kazakhstan.		LO5,
		The effectiveness of financial control is directly		LO6,LO10,L
		related to its proper organization. In other words,		011
		it is necessary to determine the form and		OH
		methods of financial control, to determine the		
		subject of control and their rights and		
		obligations.		
		Major subjects cycle / University component		
43	Taxes and	The study of the course "Taxes and Taxation"	6	MC 14
	taxation	consists in familiarization with the main		
		provisions of the theory of taxes, with the most		LO6,LO8,LO
		important taxes of Kazakhstan and the elements		9
		of their calculation and payment, with the rights		
		and obligations of taxpayers, tax authorities and		
		state executive bodies.		
44	Financing and	Studies the role of financial institutions in	6	MC16
	crediting of	Kazakhstan in expanding investment processes,		
	investments	sources of financing investment activities and		LO6,LO9,LO
		the form of short, medium and long-term		10,LO11
		financing of investment activities		
45	Banking	Studying the discipline, students familiarize	6	MC15
		themselves with the functions and tasks of the		
		National Bank of the Republic of Kazakhstan,		LO8,LO
		with questions of organizing a commercial bank,		9,LO11
		its functions, management structure, active and		
		passive operations, a range of services provided		
		by banks; study the risks and liquidity of the

		experiments, conducting and processing the		6,LO11,LO
		results of which are necessary for making		13
		guaranteed decisions in the field of investment.		13
		The program of the course orients students to a		
		1 0	1	1

		systematic analysis of investment activities using		
		information technology.		
48	ProjectAnalysis	The purpose of studying the discipline is to develop students""" theoretical knowledge and learn practical techniques for evaluating projects, analyzing their effectiveness, attractiveness and feasibility.	5	MC15,MC16 LO6,LO11,L O13
49	Finance company in the agro-industrial complex	The course examines the formation of fundamental knowledge in the future of specialists in the field of finance of agricultural enterprises, the disclosure of the essential principles of interaction between the theory and practice of financial relations, the need to organize accounting and finance, their role and significance in modern market conditions of development.	5	MC14 LO6,LO 10,LO 13
50	Taxes in the agricultural sector	The goal of the course is to form the conceptual framework, the functioning and improvement of the mechanism of taxation of the agro-industrial complex, taking into account its nature and specificity, determining the trends of its formation at the current stage, as well as reforming the tax system and using it to stimulate the development of the agricultural sector of the economy.	5	MC14 LO6,LO 10,LO 11, LO 13
51	Financial recovery of the company	This course studies the theoretical foundations of management and the applied aspects of merger and restructuring transactions, as well as the financial recovery of companies. The course examines the main reasons for mergers and restructuring, mechanisms for implementing restructuring transactions and financial rehabilitation of companies, issues of company growth and development strategies, transaction restructuring methods, legal, tax and accounting aspects of transactions.	7	MC15,MC16 LO6,LO12,L O13
52	Financial Innovations	When studying this course, future specialists form modern fundamental knowledge in the field of modern trends in the development of financial innovations for organizations (enterprises), the disclosure of the essential principles of interaction between the theory and practice of financial management, the need for financial management, the content of its traditional and special functions, role and values in modern market relationship	7	MC15,MC16 LO6,LO12,L O13
53	BankingRiskMa nagement	The course provides for the formation and development of analytical thinking in solving various kinds of financial and economic problems, analyzing and assessing banking risks, as well as developing a professional interest in the field of risks.	7	MC15,MC16 LO10,LO11, LO13
54	BankingSupervis ion	The purpose of this discipline is to teach students the theoretical and practical basics of organizing the regulation and supervision of credit institutions and the formation of their modern	7	MC15,MC16 LO10,LO11,

		knowledge in this area.		LO13
55	Digitalizationoff inancialservices	This course is aimed at studying the development of business skills in the context of digitalization, improving the skills of employees of large companies, representatives of medium and small businesses in the application and development of digital services and digital financial assets.	5	MC15,MC16 LO7
56	Electronicpayme ntsystems	The course examines the evolution of the concept of "finance" in relation to modern realities, the relationship of electronic money and electronic finance. The problems of the development of electronic commerce and electronic payments are shown, and also that finance as an economic category is influenced by virtualization processes at the stage of profound evolutionary changes.	5	MC15, MC16 LO7

## 1. 1. Summary table reflecting the amount of credits mastered by the modules of the educational program: Number of modules-12

CourseofStudy	Semester	The number of studied disciplines			Numberofacademiccredits							gu	amount	
		СС	UC	ос	Theoreticallearni ng	Traning practice	Productional Practice	Pregraduation practice	Final certification	Total	Total in academic for hours	Military training	Exam	Diff. offset
