1. Platonus Student

Platonus Student mobile app is available for download in Play Market and App Store. You can also install application by scanning QR code at the link below.

Figure 1

When you open mobile application, a page is displayed where you need to enter your phone number and log in to the application ([Figure 2](#)).

Figure 2

Figure 3

Next, a code shall be sent to specified phone number, enter it and proceed to authorization page ([Figure 3](#)).

2. Functionality for the student

At clicking "Log in to Platonus" button, authorization page opens. At this page, you need to select educational institution: to do this, use search filter and find the name of your education organization ([Figure 3-6Ошибка! Источник ссылки не найден.](#)).

Figure 4

Figure 5

Figure 6

Further, authorization options are available for students in accordance with HPEO settings ([Figure 7](#)):

- login and password
- IIN and password
- login, password, and IIN

Figure 4

After successful authorization, student opens the main page. It displays all icons of modules, available for work. There is a block below them that shows added schedule ([Figure 5](#)).

Figure 5

2.1. Schedule

When you go to «Schedule» section, a page opens for viewing training sessions ([Figure 10](#)). To select a specific schedule, use the filter located in upper-right corner. Specify academic year, academic period, and week for which the schedule should be displayed ([Figure 9](#)). By selecting «Exams» section, you can view exam schedule, including «Final State Attestation». When you go to «Mass Open Online Courses» section, list of all available courses with their names and full names of teachers is displayed ([Figure 11](#)).

Figure 6

Figure 7

Figure 8

2.2. Gradebook

Specific discipline can be found through search bar located at the top of the page. To the right of it, there is a filter where you need to specify academic year and academic period for which subjects with grades will be displayed ([Figure 12](#)).

When you click on selected discipline, its full name is displayed, as well as pie chart with the final grade. If midterm examinations are provided, then all grades for midterm examinations, score for rating and for summative assessment (for example, exam, differentiated test, etc.) are shown ([Figure 13](#)).

Figure 9

Figure 10

2.3. Assignments

«Assignments» section displays assignments assigned by teacher in the discipline. At the right top part of the page, there is «Filters» icon, where you can find necessary assignments. Search by assignment topic is also available ([Figure 14](#)).

Figure 11

Figure 12

For selected assignment, you can send it for review, go to chat with teacher, or view submitted answers. To do this, click on specific assignment ([Figure 15](#)).

2.4. Transcript

When you go to «Transcript» item, page with same name opens, displaying list of disciplines in the following tabs: «Discipline», «Research and development», «Practice», «Summative assessment», «Graduation thesis/project», «Additional study», «Academic difference disciplines», «Orders» ([Figure 13](#)).

The following elements are displayed at the page:

- Full name of the student
- GPA for the entire period of study
- Total number of credits
- Number of mastered credits

Figure 13

2.5. Individual curriculum

After proceeding to «Individual Curriculum» section, student is given the opportunity to view list of mastered disciplines or those for which registration has been completed, as well as academic calendar. Additionally, you can use filters to display curriculum for specific course, academic year, and academic period ([Figure 14](#)).

Figure 14

In «Parameters» block, you can configure displayed columns. When you click on this block, the following parameters are displayed ([Figure 15](#)):

- Display all disciplines from the transcript – if selected, you can see all disciplines from the transcript
- Hide additional semester – if selected, subjects studied in the additional semester will not be displayed;
- Discipline language – if selected, discipline language will be displayed in each discipline.
- Teacher – if selected, teachers of each discipline will be displayed.

Отображать все дисциплины из транскрипта

Скрывать дополнительный семестр

Язык изучения дисциплины

Преподаватель

Применить фильтры

Figure 15

2.6. Classrooms

After proceeding to «Classrooms» section, page with the same name opens. It contains search bar and a filter with three parameters ([Figure 19](#)):

- Academic year – displays current academic year and previous academic years
- Academic period – total number of academic periods is displayed
- Activity type – displays all types of activities available for the student

After applying filter parameters, data card is displayed, which indicates disciplines and their corresponding types of classes ([Figure 20](#)).

Clicking on selected discipline opens a page related to that discipline. There are two tabs available on it: «General information» and «Webinars». General Information tab, if available, displays description of discipline, training materials, syllabus, and video presentations ([Figure 21](#)).

«Webinars» tab displays links to platforms where classes are scheduled. For convenience, you can specify time period corresponding to date of the webinar in order to perform accurate search. «Show past webinars» feature is also available, with possibility to select the period for which a list of past classes will be generated ([Figure 22](#)).

Figure 16

Figure 17

Figure 18

Figure 19

2.7. Calculator

In «Gradebook Calculator» section, only disciplines that meet the following conditions shall be displayed in the filter ([Figure 23](#)):

- Discipline relates to current academic year and academic period.
- Application has been submitted for discipline in individual curriculum, but exam grade has not been set and final grade has not been calculated.
- Disciplines with forms of control are not displayed: «Pass/fail», «No control», «Research work», «Final grade for internship».

2.8. Academic calendar

To view the academic calendar for academic year in mobile application, go to «Academic Calendar» section. After clicking it, a page opens with student's current academic calendar ([Figure 22](#)).

Figure 22

2.9. Certificates

After proceeding to «Certificates» section, student will be able to view list of applications or submit a new one in «Applications» tab. When applying, you must follow the interface: select a service and fill in the relevant information ([Figure 23](#)).

Figure 23

In «Requests» tab, the student has the option to add a request. To do this, select a category, specify subject and text of the message, and then send it ([Figure 24](#)).
