Education		
Higher educational institution		
(a) name	Kazakh National Agrarian University	
b) Country, city	Kazakhstan, Almaty	
b) Year of receipt and graduation (b) qualification obtained at the end of the educational institution	2008-2013y	
(a) name	Veterinarian	
Academic degree and title (to date)		
Academic degree	Master of Veterinary Science	
The sis theme	"Polymorphism of the GDF-9 gene in cows using molecular genetic methods and methods for increasing the results of fertilization"	
Branch of Science	Ветеринария	
Code and name of speciality	6Б120100 – "Veterinary Medicine"	
Year of protection	2019	
The sis language	Kazakh language	
Academic title	Master	
Place of work (to date)		
Fullname of organization	Non-profit joint-stock company "Kazakh National Agrarian Research University"	
Position	Associate Professor	of the Department of Clinical Disciplines
Scientific activity		
Performer of research in the Republic of Kazakhstan (during the last 3 years)		
Name of scientific research ..	Years of implementation	Executive Organization
«Preservation and assessment of genetic diversity of Kazakh horses using whole genome sequencing»	2023-2025	Non-profit joint-stock company "Kazakh National Agrarian Research University"

«Development of molecular genetic methods for detecting latent mutations in cattle and managing the process of eliminating hereditary anomalies»	2021-2023	Non-profit joint-stock company "Kazakh National Agrarian Research University"
Municipal state institution "Department of agriculture of the Akimat of Zhambyl region" 019 Budget program of services for the dissemination and implementation of innovative experience, executor of the project on the topic "Work on artificial insemination of cows".	2023	Non-profit joint-stock company "Kazakh National Agrarian Research University"
Intensification of the breeding process in animal husbandry through the use of cellular reproductive technology	2015-2017	Kazakh National Agrarian University
In the framework of the scientific and technical program "Development of intensive technologies in the livestock industry for 2018-2020" "Development of technologies for castration of bulls and reducing the incidence of bulls in beef cattle breeding"	2018-2020	Non-commercial joint-stock company "Kazakh National Agrarian University"
The Ministry of Education and Culture of the Republic of Kazakhstan acted as the executor of the scientific project on the topic "Monitoring of livestock breeding in the Republic of Kazakhstan using molecular genetics and methods of transferring genetic defects."	2012-2014	Non-commercial joint-stock company "Kazakh National Agrarian University"
